10. Disclaimer & Liability

Services provided "as-is." No liability for lost files or indirect damages. We strongly recommend maintaining independent backups of your data.

11. Account Inactivity

If you do not log in or access your account for a continuous period of 12 months, Tricked Out Vault may classify your account as inactive. We will notify you via email before taking any action. If no response or login occurs within 30 days of notice, we may close the account and delete stored data.

12. Service Modifications and Pricing

We reserve the right to update, modify, or discontinue any part of our services, features, or pricing. Any pricing changes will be communicated in advance, and users will have the option to cancel subscriptions before renewal at the updated rate.

13. Subscription Renewals and Trials

Unless stated otherwise, subscriptions auto-renew at the end of each billing period. Promotional trials automatically convert to paid subscriptions unless canceled before the trial ends. Renewal dates and pricing are always visible in your account dashboard.

14. Billing, Refunds, and Chargebacks

Automatic Tier Upgrade Policy:

To ensure uninterrupted access and functionality, if your account approaches the storage limit of your current subscription tier, Tricked Out Vault may automatically initiate an upgrade to the next available storage plan. You will receive advance notification before any such automatic upgrade takes effect.

If you choose not to be automatically upgraded, you may opt out via your account settings or by contacting support. In that case, your account will remain capped at your current tier limit. Uploading additional content beyond your plan's capacity will be restricted until you either reduce storage usage or manually upgrade to a higher tier.

All subscription fees are billed in advance and are non-refundable, except where required by law. If we receive a chargeback or payment dispute from your payment provider, your account may be suspended or terminated immediately, and data access will be restricted until resolution.

15. Storage Limits and Enforcement

Each account tier includes specific storage limits. If you exceed your quota, uploading and editing functions may be disabled until you upgrade or reduce usage. Excessive usage that affects system performance may result in throttling, suspension, or removal.

16. Data Retention After Account Termination or Lapse in Service

Retention Period: If a user's subscription expires or their account is otherwise deactivated or terminated, we will retain the data associated with that account for a period of 30 calendar days.

Extended File Access: After account cancellation, users may continue to access and download their files for a short grace period of up to 30 days.

Permanent Deletion: After 30 days from cancellation, all stored files and data will be permanently deleted and unrecoverable. During this period, access is limited to viewing and downloading existing files. Uploading new content or editing existing files will be disabled.

User Responsibility: It is the user's responsibility to back up or retrieve any data prior to the end of the grace or retention periods.

17. Lapsed vs. Canceled Account Policy

Account Deletion Requests: If you explicitly request that your account be deleted, the deletion process begins immediately.

During the 30-day period, you may still reactivate your account.

After 30 days, your account and files will be permanently deleted and cannot be recovered.

18. Legacy Contact Policy

Users may designate a single "Legacy Contact" through their account settings. This person will be authorized to take control of your Tricked Out Vault account in the event of your passing.
